AI, BUILT ON PAPER / FOR TEAMS

TEAM WORKSHOP

Your designers hand AI and engineering *a plan they can build.*

A hands-on session for design, product and engineering teams. Everyone works from one plan, tested on paper first, so AI tools and your engineers build what the team actually decided.

THE PROBLEM

01

AI builds whatever it's told.

Give it a vague idea and it fills the gaps with guesses. Teams spend weeks fixing work nobody asked for.

02

Plans get lost between departments.

Design sketches one thing, product writes another, engineering builds a third. Every handoff loses a little.

THE FIX

One shared plan, tested on paper first.

Sketch it, watch real people try it, then write the plan AI and engineering build from.

WHAT YOUR TEAM LEAVES WITH

1 **A tested design**

Every screen on paper, tried by people who'd never seen it, fixed where it broke.

2 **The four plan documents**

Vision, rules, backlog and parking lot, in plain English.

3 **A first part built**

One piece working, built from the plan, so the team sees the loop end to end.

The half-day workshop covers the tested design and starts the plan. The virtual track and cohort seats carry it through the documents and a first part built.

FORMATS AND PRICES

Private workshop

HALF A DAY · DFW OR ONLINE · UP TO 20

Steps 1 to 5 on one real idea, plus a self-paced seat for everyone in the room.

$9,500 ONE INVOICE

Virtual team track

4 LIVE SESSIONS · ONLINE · PRIVATE

From paper to the four plan documents and a first part built, together.

On request SIZED TO FIT

Build cohort seats

LIVE ONLINE · SATURDAY MORNINGS

Send one or two people to the public cohort before a team session.

$897 PER SEAT

WHO LEADS IT

- Aneil Razvi led product design at SPOTIO
- Helped build Southern New Hampshire University's product design department
- Worked at Capital One and Citi
- Designed and shipped an app solo with AI-assisted tools, a personal project

FOR PROCUREMENT

Invoice to your company, with a W-9. NDA: yes. In person anywhere in Dallas-Fort Worth, or online. Up to 20 per workshop; larger groups run twice. No coding needed.

REFER YOUR TEAM

EARN 10%

Get AI, Built On Paper into your organization and earn 10% of the first engagement, paid after your company pays. If your employer doesn't allow that, choose a free Build cohort seat or a donation in your name.

CHECK YOUR COMPANY'S POLICY FIRST.

BOOK 15 MINUTES

Bring your team's goal. I'll tell you which format fits.
