Aneil Razvi
Design and AI experience leadership

SPEAKER PACKET · 2026

TALKS THAT MAKE AI FEEL HUMAN, NOT HYPED

KEYNOTES · FIRESIDE CHATS · PANELS · WORKSHOPS

Aneil Razvi

Aneil Razvi is a product design and AI experience leader based in Dallas-Fort Worth. He helps companies decide where AI belongs in their products, and builds the design teams that ship them. He designed and shipped Cubby, his passion project, solo using AI-assisted tools.

- DESIGNING FOR AI
- BUILDING SOLO WITH AI
- CALMER PRODUCTS
- RIGHT-SIZING DESIGN
- THE PORTFOLIO AFTER AI
- DREAM IT, THEN BUILD IT

20+ TALKS
KEYNOTES, PANELS AND WORKSHOPS SINCE 2017

VISTA UX SUMMIT
RECURRING SPEAKER, 2017 TO 2020

AIGA DALLAS
GUEST SPEAKER, PANELIST, EXPERT AND MENTOR

FUTURE OF AI DALLAS
SPEAKER PANEL, OCTOBER 2026

01 · WHAT I SPEAK ON

SIGNATURE TALKS

Each one works as a keynote, a fireside chat or a hands-on workshop, tailored to your audience.

01

Designing for AI Without the Hype

FOR

Product and design teams, and the leaders who set their direction

Where AI actually belongs in a product, and a framework your team can design against instead of bolting features onto a roadmap.

THE AUDIENCE LEAVES WITH

- A way to decide where AI earns its place, and where it doesn't
- Human-in-the-loop patterns that build trust instead of eroding it
- How to spot and avoid "AI theater"

02

Building Solo With AI

FOR

Designers, founders and product leaders

How AI coding agents let one person take a real product from concept to the App Store: what changes, what doesn't, and what it means for how teams work.

THE AUDIENCE LEAVES WITH

- An honest picture of AI-native building, from someone who shipped it
- Where craft, taste and judgment still decide the outcome
- How to raise their own ceiling without losing the plot

03

Calmer Products: Systems Thinking and Cognitive Load

FOR

Product and design teams working on complex software

Why reducing friction is the highest-leverage design skill, and how to build that discipline into a team instead of leaving it to heroics.

THE AUDIENCE LEAVES WITH

- A lens for seeing cognitive load others miss
- Patterns for taming dense, data-heavy products
- How to make "make it simpler" a team habit, not a slogan

04

Right-Sizing Design: Do You Even Need a Team Yet?

FOR

Founders, heads of design, and leaders deciding how much to invest in design

Most organizations over-invest in design too early or starve it too long. How to read your design and research maturity, pick the right level (AI-assisted, fractional or a full team) and build it when you're ready.

THE AUDIENCE LEAVES WITH

- A way to gauge their organization's real design and research maturity
- The right level for their stage: AI, fractional, contract, agency or full team
- A 0 to 1 playbook for when they're ready to build the function

05

If I Had AI Then: The Portfolio After AI

FOR

Design schools, AIGA chapters, creative communities and creative recruiters

Anyone can make a screen look good now, so a polished portfolio no longer proves much. What's left is judgment: what you chose, what you rejected, and where AI earns its place. A talk, or a workshop where people rework a real project live.

THE AUDIENCE LEAVES WITH

- Why a polished portfolio stopped being proof, and what replaced it
- A Then and Now format for showing how they'd run an old project today
- One reworked project, when it runs as a workshop

OFF SCRIPT IS WELCOME

These five are starting points, not a menu. I'm glad to go off script, take any question in this space, or build something new around your event. Just ask.

NEW TALK

Dream It, Then Build It

Building an app is within anyone's reach now, creatives most of all. Dream the world that could be, then build it. Also runs as my hands-on workshop for creatives.

MY BACKGROUND

From Print to Digital

From art director in print and advertising to product design leader, and what that shift says about the one AI is driving now.

POINT OF VIEW

AI in Plain English

My take on AI in general: what it changes, what it doesn't, and how to think about it without the hype or the fear.

02 · THE RECEIPTS

RECENT STAGES

Industry panel, AIGA Dallas Mini-Con 2026, UT Dallas. Photo: Tim Harris Photography for AIGA Dallas.

Every talk can run as a hands-on session.

2026

5 DEC	**Sketch to Ship · Dallas** Upcoming. Hands-on workshop, 9am to 1pm: sketch an idea, test it on paper with real people, leave with the plan an AI tool builds from.
29 OCT	**Future of AI Dallas · The Constellation Club, Irving** Speaker panel with Iffat Tariq and Ernesto Miranda: what AI changes next.
29 OCT	**Video interview with Abdul Haseeb Asif** AI, Product Design, and Trust.
22 OCT	**Go Fractional Demo Day · Online** Presented Cubby, designed and shipped solo using AI-assisted tools.
10 OCT	**AIGA Dallas Mini-Con · UT Dallas** Industry panel and open Q&A with design students.
9 OCT	**Ramblings of a Designer, ep. 177 · Podcast** Build Something While You Don't Need It.
29 SEP	**Texas Startup & Tech Week · Online** Where Design Starts Paying: a working hour for founders.

BEFORE THAT

Vista UX Summit · 2017 to 2020
Recurring speaker at Vista Equity Partners' UX Summit. Sessions include Can UX Survive Without Product Management?, Field Studies: Seeing the World Through the Eyes of Our Users, and Bring Design Thinking to Your Organization.

Omnitracs Outlook · 2017 to 2020
Sessions for customers and channel partners, from how the UX Design Lab works with drivers and dispatchers to a live design demo with the audience.

AIGA Dallas
Creator Lab guest speaker, Creative Career Corner expert, Mentor Mixer mentor and AIGA DFW portfolio reviews.

Dallas Sketch App Meetup
Pizza & Pixels with Sketch: style guides and atomic design.

> **He did a fantastic job sharing his insights and adding to the conversations throughout the event.**

Dr Geanie Asante
Mini-Con 2026 speaker

> **Aneil is one of those dynamic creative leaders that lights up any room he walks into. If you need an energetic and charismatic speaker to help empower your organization, you need an Aneil.**

Su Milazzo
Design and Product Ops Practitioner

> **His presentations and engagements with my channel partners fostered a deep sense of teamwork and engagement. He has always been a sought-after contributor to partner conferences.**

Eric Braswell
Chief Revenue Officer

03 · FOR EVENT ORGANIZERS

FOR YOUR PROGRAM

What program committees usually ask for, in one place. Copy anything here into your program.

INTRODUCTION TO READ ON STAGE

ABOUT 20 SECONDS

> **Our next speaker turns complicated products into calm ones. Aneil Razvi built the design function at SPOTIO, helped build the product design department at Southern New Hampshire University, and designed and shipped an app solo using AI-assisted tools. Please welcome Aneil Razvi.**

LONG BIO

Aneil Razvi leads product design and AI experience. He built the design function at SPOTIO, where he set the AI experience strategy and helped shape DASH, an AI co-pilot for sales teams with human approval built in. He helped build the product design department at Southern New Hampshire University, unified Omnitracs's fleet platform, and led design work for Citi, Capital One and Kalkomey. His point of view: design should be sized to where a company actually is, and AI should earn its place in a product instead of being bolted on. He has spoken at Vista UX Summit and AIGA Dallas, teaches AI, Built On Paper, and designed and shipped Cubby, his passion project, solo using AI-assisted tools.

SHORT BIO

Aneil Razvi is a product design and AI experience leader based in Dallas-Fort Worth. He helps companies decide where AI belongs in their products, and builds the design teams that ship them. He designed and shipped Cubby, his passion project, solo using AI-assisted tools.

AT A GLANCE

BASED IN	Dallas-Fort Worth, Texas
TRAVEL	Events worldwide, in person or virtual
FORMATS	Keynote (20 to 45 minutes), fireside chat, panel, or a half-day or full-day workshop
AUDIENCES	Product and design teams, product and engineering leaders, founders and executives, design students
LANGUAGE	English
FEE	Depends on the format and travel. Ask and you'll get a straight answer.

ON THE DAY

- Handheld or lavalier mic
- HDMI to a 16:9 screen and a slide clicker
- Workshops: tables for small groups; the materials list comes ahead of time
- Headshot and photos: aneilrazvi.com/assets/brand/aneil-razvi-headshot.jpg, more on request

BRING THIS TO YOUR STAGE

LET'S TALK ABOUT WHAT WOULD LAND FOR YOUR ROOM
